

Retire Your Ride

Canada's Vehicle Recycling Program

AUTO RECYCLER SIGN UP SHEET

Program Highlights

Retire Your Ride is an exciting new program that is expected to retire 50,000 vehicles across Canada per year until March 2011. The Program engages Canadians to donate their running, 1995 and older vehicles in return for a variety of attractive incentives. Backed by a \$92 million dollar commitment from the Government of Canada, and the Clean Air Foundation's marketing and partnership savvy, this Program will be of interest to auto recyclers across Canada. In addition to a steady source of vehicles, this Program may bring national awareness of auto recycling and potentially your business.

We would like to invite you to join the start up of **Retire Your Ride**. Please review, sign and return this letter of intent by fax or email to the Clean Air Foundation. There is no obligation to stay on the Program once it begins and there is no cost to join. To stay enrolled in the Program, recyclers must agree to training on the Code of Practice, developed by the Automotive Recyclers of Canada, and must pass at least one no-charge audit of their facility to demonstrate compliance with the Code.
